

Midwifery Student Evaluation

Client name (optional):

Student name:

Preceptors:

Thank you for involving midwifery students in your care. Your involvement in their training as midwives is invaluable. We appreciate your time in offering feedback about the care students provide and our approach to working with students by answering the questions below.

What aspects of the student's care did you find most helpful? What did you enjoy about having a student involved in your care?

Are there ways the student could improve her care?

Do you think the preceptor and practice could have improved your experience working with students? How?

Do you have any other comments?
